## Memorandum of OBJECTS AND REASONS

This Bill makes several amendments to the Proceeds of Crime Act (2025 Revision) (“the principal Act”) in order to provide, among other things, for the following matters —

- (a) change in the membership of the Steering Group;
- (b) continuation of the Inter-Agency Coordination Committee;
- (c) the sharing of information between members of the Steering Group and the Inter-Agency Coordination Committee and among members of the Inter-Agency Coordination Committee;
- (d) the provision of annual performance reports by every competent authority which is charged with the responsibility for investigating or prosecuting money laundering, associated predicate offences and terrorist financing; and
- (e) immunity of the Steering Group and its members and the Inter-Agency Coordination Committee and its members.

Clause 1 provides the short title of the legislation.

Clause 2 amends section 2 of the principal Act to insert definitions of “**Inter-Agency Coordination Committee**”, “**self-laundering offence**”, “**stand-alone money laundering offence**” and “**third-party money laundering offence**”.

Clause 3 repeals and replaces section 5(1) of the principal Act to change the composition of the Steering Group. It is proposed that the Steering Group will now be chaired by the Minister responsible for financial services or a designate of the Minister. Clause 3 also amends section 5 to provide that there continues to be established a committee known as the Inter-Agency Coordination Committee appointed by the Steering Group.

Clause 4 inserts a new section 5A which provides for the provision of annual performance reports by every competent authority which is charged with the responsibility for investigating or prosecuting money laundering, associated predicate offences and terrorist financing. It is required that such reports must, no later than three months after the end of each year, be prepared and submitted to the Steering Group. As soon as practicable after the Steering Group has received the report, the Steering Group must submit the report to Cabinet for its information, and thereafter publish the report in the Gazette and on any other government website determined by the Steering Group.

It is proposed that the annual performance report will contain different information depending on whether an entity prosecutes or investigates offences. However, both types of entities must provide annual performance reports containing the following information —

- (a) key achievements and indicators of progress —

- (i) as measured against the national action plan approved by the Steering Group, if one exists; to combat money laundering, terrorist financing and proliferation financing; and
  - (ii) in the absence of a national action plan, which are in line with the national strategy to combat money laundering, the financing of terrorism and proliferation financing;
- (b) an outline of the operational and strategic priorities of the relevant competent authority for the forthcoming year where such priorities relate to the national anti-money laundering, counter-terrorist financing and counter-proliferation financing strategy; and
- (c) statistical or performance indicators relevant to the effectiveness of the relevant agency in its performance against —
  - (i) the national anti-money laundering, counter-terrorist financing and counter-proliferation financing action plan approved by the Steering Group, where one exists; or
  - (ii) in the absence of a national action plan, in line with national anti-money laundering, counter-terrorist financing and counter-proliferation financing strategy.

Matters to be included in an annual performance report for an entity which prosecutes offences include —

- (a) the number of prosecutions for money laundering, terrorist financing and proliferation financing activity;
- (b) the nature and types of associated predicate offences from which proceeds are derived;
- (c) the number of money laundering convictions related to —
  - (i) third-party money laundering offences;
  - (ii) stand-alone money laundering offences;
  - (iii) self-laundering offences; and
  - (iv) foreign predicate offences;
- (d) the number and types of sanctions including monetary fines and prison sentences imposed for money laundering, terrorist financing and proliferation financing offences; and
- (e) the types of offences to which each sanction relates.

Matters to be included in an annual performance report for an entity which investigates offences include —

- (a) the number of criminal investigations for money laundering, terrorist financing and proliferation financing activity;

- (b) the number of criminal cases where there was an investigation to identify and trace assets; and
- (c) the value of criminal assets seized or frozen for domestic purposes.

Clause 5 inserts new sections 7A and 7B. The proposed new section 7A deals with information sharing. It is provided that —

- (a) a member of the Inter-Agency Coordination Committee may disclose information in the possession of that member to another member of the Inter-Agency Coordination Committee; and
- (b) a member Inter-Agency Coordination Committee may disclose information in the possession of that member to a member of the Steering Group,

where the disclosure is made in good faith for the purpose of enabling the Inter-Agency Coordination Committee, members of the Inter- Agency Coordination Committee or the Steering Group to perform functions under the legislation or in the exercise of any statutory power.

The new section 7B provides that neither the Steering Group, a member of the Steering Group, the Inter-Agency Coordination Committee nor any member of that Committee shall be liable in damages for anything done or omitted in the discharge of their respective functions or duties under the legislation unless it is shown that the act or omission was in bad faith or constituted wilful misconduct or negligence.

Clause 6 validates the sharing of information which took place prior to the date of the commencement of the amending legislation.
